Subject: Arsenic Mitigation Project Information

Hi Lionel,

It was great to meet you face to face during our meeting last week. Please find attached a narrative of how the arsenic mitigation concept was conceived as well as some guidance on where it's going. Please feel free to edit this document as you see fit before passing it on to Gail. I have also attached a project concept overview map with detail sheets describing each of the phases as currently conceived (subject to change). Please let me know if you need any further information and I'm sure we'll be in touch very soon.

Best regards,

Jason Crownholm, P.E.
